F . 1 Attraction of adult *Eucolaspis* sp. beetles to host plant odour (apple/blackberry/ white clover/broad-leaved dock) or clean air (control) in Y-tube olfactometer bioassays. *P < 0.05. X-axis shows response index; positive response index indicates attraction.

F . 2 Attraction of adult *Eucolaspis* sp. beetles from 'Havelock North apple' and 'Waikanae blackberry' populations to host plant odours (apple/blackberry) in Y-tube olfactometer bioassays. *P < 0.05. X-axes denote response index; positive response index indicates attraction to apple; negative response index indicates attraction to blackberry. Map
